Jubilee Flexidriver® & Jubilee Clipdriver®

High precision tools specifically designed for efficient, rapid and easy adjustment of Jubilee clips to their optimum torque and . The invaluable Flexidriver with flexible shaft has been designed to reach all those awkward places while the Clipdriver has rigid shaft and is available in two lengths (95mm and 160mm).

Normal and Side Closing Pincers

Pincers are used to crimp the ear of Jubilee 'O' clips (2-ear clamps) and also Jubilee constant velocity (CV) boot clips to affect a proper seal. The side closing pincer is for use when access to the ear is difficult.
